

Your Boiler Room Experts Since 1955

pbbs.com/boilers

PBBS is dedicated to helping you find the best solution for your boiler room needs. Whether you're a specifying engineer working on a new building, or you're in need of replacement boilers or upgrades, the best way to start your project is with a call to PBBS. Our complete boiler room services include:

- Staff Engineers to assist you with load calculations, sizing, product selection, permitting, layout, and more.
- Sales Engineers providing plant surveys, technical assistance, equipment analysis, competitive contrasts, and comprehensive proposals to ease the evaluation process.
- Field Service Engineers providing technical backup, expert troubleshooting, and the expertise to initiate the best long term solutions.
- A Total Organization dedicated to finding the best solution for you; backed by a satisfaction guarantee!

Setting the standard for efficiency and control, Cleaver-Brooks and Nebraska Boiler offers optimum heating surface resulting in long life, low maintenance and years of consistently high output.

PBBS carries a complete line of Cleaver-Brooks firetube and watertube boilers and Nebraska Boilers in Minnesota and Western Wisconsin. We are also an authorized C-B parts and service center for Wisconsin, Minnesota, North and South Dakota .

Through the years, the commitment to product improvement and a continuing quest for the highest standards of product performance have placed Precision in the world market as a leader in boilers, hot water heaters, tanks, and thermal storage systems.

We carry a complete line of commercial steam and hot water boilers (including high pressure and electric) from Precision Boiler.

Raypak has continued to lead the industry in innovative product designs, with efficiencies up to 97%, UL approved energy management systems, and product line extensions.

PBBS stocks Raypak boilers, and offers atmospheric and sealed combustion boilers from Raypak.

Columbia Boiler is recognized for outstanding residential, commercial, and industrial boilers and support systems that offer reliable performance and intelligent design.

We carry a complete line of Columbia products.
